BORN & BRED AUSTRALIAN SINCE 1955

B&R Enclosures are committed to delivering safe, accessible and sustainable enclosure solutions.

With over 60 years experience in Australian manufacturing, we've built excellence and innovation into everything we do. This is why B&R is the most trusted brand for enclosure and cabinet solutions.

brenclosures.com.au

Kevin and Judy Taylor purchased Shannon Electrics Broken Hill in July 1985. From Kevin and one office staff, the business has grown to employ 10 full time staff.

We provide electrical and industrial products to the mining industry and community as a whole. Being a member of the Electrolink buying group has allowed us to remain competitive in the market place and build the business to what it is today. We have been a member of Electrolink since its inception 25 years ago.

Our reputation is built on providing excellent service and having stock availability, superior to our competitors. We employ qualified electricians on our sales staff to offer expert advice and provide a quick response time for quotes and filling orders.

Shannon Electrics has also established a large retail presence in the Broken Hill community with a well-stocked Makita shop, Engel fridges, Weber barbecues and a domestic lighting showroom. We also service the tools we sell.

We also remain active within our community being major sponsors of many sporting and community groups.
